

SIGN REGULATIONS

The majority of sign ordinance updates prepared for our clients are completed as part of an overall Zoning Ordinance amendment. In the past three years, CWA has completed a number of Zoning Ordinance amendments including sign regulation updates. These include:

- Green Oak Charter Township
- Pittsfield Charter Township
- City of Milan

We pride ourselves on incorporating best practices and amendments that address specific issues, remain consistent with the Michigan zoning enabling legislation, and respond to precedents established by case law. Without compromising legal precision, these Ordinances have been made understandable to the user. Improved graphics have been included in the document using new software technology. The graphics complement the text to make the Ordinance more user-friendly. Such graphics better illustrate the ordinance requirements such as sign regulations. These Ordinances are designed not only for hard copy but also online use, with hyperlinks provided to allow cross-referencing between sections of the Ordinances.

Sign Area: Cumulative total of all separate areas
